Product Detail

Smart Business FZE® is pleased to introduce eeWebEditPro - The perfect WYSIWYG web site building tool that lets you rapidly create and manage professional websites.

Now you can avail a simple, powerful and affordable web content management solution to update your own web site from the comfort and familiarity of your web browser.

How can you benefit from using eeWebEditPro as your web site editor?

- Manage an entire web site from just one location
- Make updates at any time, from any internet-enabled PC
- Save time and money and be up and running in under an hour
- If you can use Microsoft Word, you can use eeWebEditPro

Powerful content management features

- **Printable user guide.** Specifically written for the non-technical user. Print and provide our user guide to your secretary or other staff. No training required!
- **Hide complete files and folders from your staff.** You control which file and folder types your staff are allowed to manipulate. Give them access only to their news or products page.
- **Use SSI, ASP includes and server-side code.** Simply setup editable regions (using comment tags) and only content that users are allowed to change will be saved.

Web Site Owners

This is the end of paying technical staff to perform expensive and time-consuming updates. You have complete control of your web content and can add/edit/delete product information, build a new site section, alter your branding or launch a new marketing initiative in minutes - and you can do this from anywhere in the world and from any web browser!

Benefits

eeWebEditPro is the most powerful web site maintenance solution available. Take a look at our list of benefits and we're sure you'll agree:

- **Manage entire web sites.** Easily create a professional web site in 5 minutes, and manage it all with online web content management tools. Multi-user support lets user groups manage the content of different sections.
- **Make updates anytime, anywhere.** Remove all the hassles associated with organizing and briefing in changes. All you need to do is login through a browser and you can update the content yourself from your office, home, laptop, or even when you're traveling.
- **Save time and money.** You can build fully functional and professional web sites without the need for expensive web development tools or technical staff. No need to pay for updates, and no more waiting for your webmaster to make your required updates. Setup, design, implementation and maintenance costs are no longer an issue - leaving you more time and money to get on with your business.
- **It's as easy as using Microsoft Word.** With the powerful Online WYSIWYG (What You See Is What You Get) editor, create and edit professional HTML pages in minutes with no need to worry about coding or a third party FTP client.

Features

For Web Developers

- **Printable user guide.** Specifically written for the non-technical user. Print and provide our user guide to your secretary or other staff. No training required!
- **Restrict Editing to sections of your website that YOU define.** You maintain control of your designs. Easily disable functionality, such as delete, rename, upload or create. Only give your staff access to features that you allow!
- **Hide complete files and folders from your staff.** You control which file and folder types your staff are allowed to manipulate. Give them access only to their news or products page.
- **Do you create files in Macromedia Dream weaver using templates?** No problem, eeWebEditPro edits those files with the editable regions intact, restricting end users so they only edit those regions you specify!
- **Use Server Side Include tags, ASP include tags AND Server side code.** The ONLY online html editor that maintains your server side code! Simply set Editable Regions using simple Comment tags, and only content that users are allowed to change will be saved. The rest of your web page will stay intact; meaning ANY code, server side code etc will stay intact.
- **Toggle between WYSIWYG and raw code mode.** You can directly edit your html code from your browser! Complete HTML and XHTML output.
- **Complete support for style sheets.** If your HTML code contains a <style> tag or links to a style sheet, then those styles will automatically be available in the style sheet drop down list on the toolbar!
- **No database required.** It will work directly with your html files in any html format file and can be configured to recognize shtml, asp, php and more.

For Web Site Owners

- **User-friendly interface, just 'Point and Click'.** No technical or programming skills are required. It also comes with clear User Guides and a handy online help system.
- **Fast and simple - everything is handled in the browser!** 100% DHTML, JavaScript and PERL/ASP/PHP code with no slow Java or ActiveX components to worry about.
- **Powerful file manager with no need for FTP.** Create new files based on templates, upload files from your hard drive, copy, rename, delete files and more.
- **Completely online HTML WYSIWYG Editing (What You See is What You Get).** If you or your staff can use Microsoft Word, then you can use eeWebEditPro! Rich text formatting, search, replace, undo, redo, cut, copy, paste, tables, links, images and much more!
- **Create slick tables fast.** Set their border color, alignment, spacing and more. Once created, simply right click on it for a handy popup attribute menu!
- **Forms in a flash.** Create contact, survey or order forms directly from your web browser with text boxes, radio buttons, check boxes, buttons and more.
- **Upload images directly into your content.** Using the powerful eeWebEditPro image manager is a snap.
- **Powerful link manager.** point and click to create links to other pages on your website or to external sites
- **Instant template previews.** See instant snapshot previews of the templates you are creating.
- **Requires NO FTP, HTML or programming knowledge.** If you can use Microsoft Word, you can use eeWebEditPro! No need to worry about coding, a third party FTP client or learning how to use them

Screenshots

eeWebEditPro is completely web based application and runs directly from your web browser and is completely menu driven. We have given below some screen shots for your idea.
